

At Magbee Contractors Supply, we take pride in the quality of our products, the detail of our craftsmanship, and the accuracy of our leadtime estimates. With a focus on innovation, our millshop associates are true craftsmans with years of experience creating custom millwork.

Here are some designs that we have created to enhance the look of the windows in your home. Or feel free to create your own design and we will be glad to assist you. Our standard SDL Bars are 3/16" x 7/8" wide and 3/16" x 1 1/4" wide PVC (no rot). We also offer 1/4" x 7/8" wide and 1/4" x 1 1/4" wide in PVC (no rot). And if you are planning to stain the interior of some windows, we can provide a stain grade interior SDL bar as well.

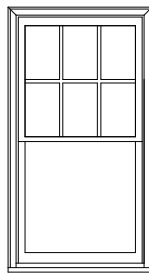

For more information and/or help with your next project, contact a Magbee sales representative.
